Hello Sharifa,

How are you? I hope everything is OK with you. The English course has almost finished now – can you believe it? I was just talking to Yu Peng yesterday and she told me that you’re planning to go to Stratford University. That’s great. As I’m planning to go to St John’s University, we’ll be living in the same city!

Have you decided whether it’s ? My parents want me to live with a host family in the city, but I want to live in a shared flat in a hall of residence on the campus. I think they’re good places to live, but a difference . When you live with a family, you usually have to fit in with their timetable. , when you live in a flat in hall you can do what you want when you want. Another is that, with a family, you don’t have to cook. In a flat in hall, of course, you have to cook for yourself! That would be good for me because I like cooking. My parents have pointed out that all the food is included in the price when you live with a family, but you have to pay extra for this in hall. Plus there could be complications about sharing the kitchen if everyone wants to cook at the same time. , when you live in a flat in hall, you get to choose what you eat and when you eat it.

I hope I can convince my parents that living in hall would be better for me than living with a host family! Talk to you soon
