I would like to hold a position as a machine learning developer as I am interested in the topic of artificial intelligence. <b>On the other hand</b> , <b>working for a big prestigious international company</b> is also a highly paid job. <b>Despite this fact</b> , I would <b>not want to work</b> there, since I <b>don't like</b> to travel anywhere outside my city, and <b>therefore</b> I <b>will not have</b> the desire to spend time at overseas branches if necessary. The most important thing for me in my future work is an ideal pattern of working hours so that I <b>can</b> spend time with my family. <p><b>Step 3. Homeworking</b></p> <p>3.1 Speak about the reasons for homeworking, the advantages and disadvantages of working from home.</p> <p>3.2 Would you like to work from home? What would be the advantages/disadvantages for you?</p>	<p>Working from home is gaining popularity now, but what are the reasons for this? First, homeworking employees don't need to commute daily to work. Second, they can plan their own work schedule and develop time management skills. Additionally, homeworking brings benefits to employers. Office space is costly, so if a company can reduce the number of workstations, it may be available to move to a smaller site. And, as a result, such a step will lower the costs for a company. However, homeworking has disadvantages. It's very difficult to be in charge of the staff when you cannot see them. Also, people who work from home eventually stop seeing home as a place to relax in. I would really like to make a living working from home. After completing a work placement and getting enough training I hope that I will be able to get a good job offer. Because I prefer not to burn the candle at both ends and to have a better work-life balance.</p>	<p>First, to commute daily to work.
